Professional Summary

Full-Stack Java Developer and final-year Computer Science Engineering student with hands-on production experience building backend microservices and RESTful APIs in **Java 17**, **Spring Boot 4**, **Spring Security (JWT)**, **MapStruct**, **STOMP WebSockets**, and **PostgreSQL**. Additional experience in **React.js** front-end development and enterprise-scale **Oracle Database** query optimization, with a proven ability to independently design, secure, and ship backend systems in fast-paced remote teams.

Technical Skills

Languages: Java 17, Python, C, JavaScript (ES6+), SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot 4, Spring Security (JWT), Spring Data JPA, MapStruct, STOMP WebSockets, React.js, Node.js, Tailwind CSS, Apache POI

Databases: PostgreSQL, Oracle Database, SQL Query Optimization, Relational Database Design

Tools & Practices: Git, GitHub, Docker, Postman, OpenAPI 3 / Swagger, Linux/Unix Shell, RESTful API Design, Microservices Architecture, Data Structures & Algorithms

Experience

South Eastern Railway

Garden Reach, West Bengal, India

Information Technology & Computer Science Intern

Jul 2026 – Aug 2026

- Selected through a competitive process for the Summer Internship Programme in I.T. & Computer Science at South Eastern Railway headquarters.
- Wrote and optimized complex SQL queries against enterprise **Oracle Database** systems to support day-to-day IT operations.
- Analyzed multi-relational enterprise database schemas to streamline internal reporting workflows and operational monitoring.

ARMB.

Remote

Full-Stack & Backend Software Development Intern

Jan 2026 – Jul 2026

- Built the **SkipIt** backend matching engine and RESTful API platform in **Java 17 & Spring Boot 4**, using **MapStruct** for zero-reflection DTO mapping and **OpenAPI 3 / Swagger** for interactive API documentation.
- Secured all RESTful endpoints by implementing **Spring Security JWT** authentication and Role-Based Access Control (RBAC).
- Developed the **Gulum** backend for an educational institution platform, modeling Spring Data JPA entities on **PostgreSQL** and adding **STOMP WebSockets** for real-time notification delivery.
- Built automated Excel data-processing pipelines with **Apache POI** and designed JSON Patch-based DTO transformation APIs.

Projects

SkipIt | Java 17, Spring Boot 4, MapStruct, OpenAPI 3, Spring Security JWT, PostgreSQL

Jan 2026 – Jul 2026

- Engineered a high-performance backend matching engine and RESTful API platform for a peer-to-peer skill-exchange application, using MapStruct 1.5.5 for object mapping and Swagger UI for live API testing.
- Implemented JWT token validation and role-based access control to secure all backend endpoints.

Gulum | Java 17, Spring Boot 4, PostgreSQL, STOMP WebSockets, Apache POI

Jan 2026 – Jul 2026

- Architected an institutional management microservice backend using Spring Boot and PostgreSQL.
- Implemented STOMP WebSocket handlers for real-time alerts and built server-side automated Excel reporting with Apache POI.

Kode and Rise & Agri-Guru | React.js, Node.js, Tailwind CSS, JavaScript, QRjs

2025

- Built a full-stack e-commerce and digital-marketing platform with a responsive storefront UI, cart logic, and QRjs-based dynamic QR-code generation for promotional campaigns.
- Developed a supply-chain verification platform with cryptographic batch tracking and QR-code authentication to combat counterfeit agricultural supplies.

Education

MCKV Institute of Engineering

Howrah, West Bengal, India

Bachelor of Technology (B.Tech), Computer Science and Engineering

Aug 2023 – Apr 2027 (Expected)

- Relevant Coursework:** Data Structures & Algorithms (Java), Operating Systems, RDBMS, Machine Learning, Deep Learning, Software Engineering.

Elite Co-Ed

Bandel, West Bengal, India

Higher Secondary (WBCHSE) – Physics, Chemistry, Mathematics & Biology

2021 – 2023

- Completed Secondary Education (WBBSE) at the same institution, 2010 – 2021.
